What is Vetiver Oil?

- The Vetiver oil is amazing, made from Vetiveria, which is a plant known for its nutrition qualities, it's an oil with the smallest amount of silicones possible to make an oil
- Vetiver, is a perennial grass of the Poaceae family, native to India... Though it originates in India, vetiver is widely cultivated in the tropical regions of Haiti & Indonesia.
- Due to its excellent fixative properties, Vetiver is used widely in perfumes. It is contained in 70% of all western perfumes.
- Like patchouli and sandalwood essential oils, the odor of vetiver develops and improves with aging.

Vetiver Oil now in India!

- Hair textures in India are different according to the different cities and their climatic conditions.
- Unlike Argan or Moroccan Oil available in the market, Vetiver is the purest form of Oil that has worked on all types of Indian hair.
- We believe in quality professional services and have done a lot of R & D to work the oil in a treatment procedure for your clients.

Vetiver Oil as a treatment

- We believe in providing the best alternative in hair care with natural sources.
- Zeus Worldwide is again the first in India to introduce 'Hair Care' in a treatment and spa procedure with pure Vetiver Oil.
- The following slides would show you the simple 'step by step' features.

Vetiver Oil Care- Procedure I

(For Soft,Smooth,Shinier hair)

STEP 1

Use a clarifying shampoo (Amazon) to wash the hair before the treatment.

Shampoo twice with an interval of 5 minutes.

STEP 2

Blowdry the hair using your fingers upto 90% only and not completely dry.

Silenforce dryers help not emit too much heat, thus enhancing the drying as desired.

Procedure-II

- STEP 3
Begin applying Vetiver Oil on the hair taking small sections of the hair leaving 1 inch from the root.
- STEP 4
BlowDry or Iron/Paddle dry the hair now 100%
- Experience a shine and softness to your hair.
